

This month's product promotions, company news and more.

Welcome Back!

Welcome to the September edition of "In The Know With Ohio Valley Drywall Supply." We're glad to connect with you again!

Product Spotlight: Telling True-Action Slotted Track

True-Action Slotted Track is a head-of-wall deflection system that creates fire resistance for interior and exterior walls. It is UL Classified for 1, 2, 3, and 4 hour fire resistance and can be used in over 80 approved fire-rated systems.

This product is available in a variety of custom shapes, sizes, widths and thicknesses. To learn more, [download the True-Action Slotted Track brochure](#) or watch Telling's new instructional video (below) to see the install process.

Product Spotlight: Tectum Wall & Ceiling Panels

Tectum's Roof Deck and Interior Solutions have been trusted in high-traffic and high-impact spaces for over 65 years. They are known for durability and noise control. Products in the line include:

- **Tectum I Acoustical Roof Deck** - typically used in low-slope applications and compatible with virtually all roof installation materials.
- **Tectum III and IIIP Acoustical Roof Deck** - typically used in sloped applications that also require insulation and a nailable surface; the IIIP version is specifically designed for high humidity applications.
- **Tectum E and E-N Acoustical Roof Deck** - created with a Tectum substrate, insulation and sheathing with a slip-resistant surface; the EPS version has an expanded polystyrene insulation while the E-N version has a Graphite Enhanced Polystyrene insulation.
- **Tectum V Acoustical Roof Deck** - created with a Tectum substrate, two layers of insulation, two layers of sheathing, and a slip-resistant surface.
- **Tectum Panel Art Wall Panels** - manufactured to offer design flexibility along with easy installation; available in eight shapes, with custom options and colors.
- **Tectum Finale Wall Panels** - combines a Tectum panel with an acoustical absorptive material to provide both insulation and sound control; can be ordered in white, natural or custom colors.

Installation Tip: SmartFit Yoke Linear Grid

Speed up your ceiling installation with SmartFit Yoke from CertainTeed. This two piece linear lighting accessory has pre-drilled holes every 1" to fit common fixtures and channels (4", 6" or 8"). It also allows the entire suspension system to be assembled prior to installing the light fixtures, diffusers and other components.

SmartFit Yoke is compatible with all CertainTeed acoustical and drywall systems, including Symphony *f* and Symphony *m* panels. Common applications include open offices, private offices, classrooms, cafeterias and conference rooms.
