ROXUL is now ROCKWOOL

ROXUL completed its rebranding as of January 1, 2018 and is now **ROCKWOOL**. Ohio Valley Drywall Supply sells a variety of insulation products from ROCKWOOL in the following categories:

- Interior wall insulation
- Exterior wall insulation
- Ceiling insulation
- Floor insulation
- Attic insulation
- Roof insulation
- OEM insulation
- Industrial insulation
- Marine and offshore insulation

The raw material for all of ROCKWOOL's products is stone, which the company says is a sustainable source that is naturally resilient. Their finished insulation is a rock-based mineral fiber comprised of basalt (a volcanic rock) and recycled slag (a byproduct of the copper and steel industries). It is available in batt, board and pipe forms. It can also be used to help obtain LEED certification.
